INDEX to Volume XII, 1955–56

Figures in heavy type preceding page references indicate the parts of *The Advancement of Science* in which references will be found.

Title of communications are frequently abbreviated.

AARON, J. R., River and sea defence works, timber in, **47**, 361.
Account, Treasurer's Statement and, **47**, 344
ADAMS, Dr. J. B., Circular accelerators for charged particles, **47**, 358, 366
ADRIAN, Dr. E. D., Localisation in the cerebral cortex, **45**, 49
Afforestation and the community, Prof. E. C. Mobbs, **47**, 281, 361
Agriculture, efficiency in, S. R. Wragg, **47**, 358
Ainu of Japan, disposal of dead, H. Watanabe, **47**, 359
Air Transport, British, P. J. Masefield, **47**, 311, 358
Aircraft industry, some uses of timber in, D. H. Carstairs, **47**, 361
ALEXANDER, K. J. W., Wages in coal mining, **47**, 358
ALEXANDER, W. B., Birds on sewage farms, **45**, 113
ALFORD, Miss V., Song and dance in connection with funerals in Europe, **47**, 359
ALLAN, D. W., Heat in the earth, **45**, 89
ALLCROFT, Dr. Ruth, Industrial fluorosis in farm animals, **47**, 362, **49**, 494
AMBROSE, Dr. E. J., and ABERCROMBIE, Dr. M., Behaviour of living cells, **47**, 357
Amino-acids, Metabolism of, Dr. B. F. Folkes, **47**, 360
AMOROSO, Prof. E. C., Endocrine environment of foetus, **47**, 357
Animal behaviour, **45**, 17
migration, **47**, 365
movement, **47**, 359, 366
Animals, inherited diseases in as tool of research, Dr. H. Grüneberg, **47**, 357
Anthropology—a scientific unity? Dr. D. B. Harden, **46**, 220, **47**, 359
Aphasia, semantic aspects of, Sir Russell Brain, Bt., **47**, 360
Archaeology, Oxford U. Research Laboratory for, Dr. Stuart Young, **47**, 359
regional, **47**, 359
scientific techniques in, **45**, 3, **47**, 359
spectroscopic analysis in, Dr. E. T. Hall, **45**, 8
Automatic control in industry, Harry Ree, **47**, 361
Aymestrey area, Dr. J. D. Lawson, **47**, 356, **49**, 563

BAKER, Dr. H. G., Fritz Müller and pollen dimorphism in the Rubiaceae, **47**, 361
BAKER, J. N. L., Geography and its history, **46**, 188, **47**, 357
BALCH, Dr. C. C., Grass silage, the nutritive value of, **47**, 361
BARNETT, Dr. S. A., Societies of wild rats, **47**, 357, 365
BARNSLEY, E., Timber, the use of by craftsmen furniture makers, **47**, 361
BARRER, Prof. R. M., Separation of molecular mixtures by crystal sieve, **47**, 356
BARTON, Dr. A. W., Function of school in training physicists, **47**, 355, 363, **49**, 543
Basket willows, K. G. Stott, **47**, 361
BATEMAN, Dr. A. J., Control of variability, **47**, 360
BATES, Dr. J. A. V., Voluntary movement in cerebral cortex, **45**, 59
Behaviour, and psychoanalytic theory of motivation, Prof. J. Nuttin, **47**, 360
modifiability of instinctive, Dr. R. A. Hinde, **45**, 19
BELL, Dr. G. D. H., Organised plant breeding, **47**, 295, 360
BENTLEY, Dr. E. W., Control of sewer rat populations, **45**, 111
BERNDT, R., Cannibalism, New Guinea, **47**, 359
BEYNON, Dr. W. J. G., Ionospheric studies, **47**, 355
BIEK, L., Scientific evidence from burials, **47**, 358
Biological organisation, Prof. K. Mather, **46**, 250, **47**, 360
BIRCH, J. W., Pioneering in Canada, **47**, 357
Bird navigation, sun's rôle, Dr. G. V. T. Matthews, **47**, 357
Birds, flapping flight of, Dr. R. H. J. Brown, **47**, 359
Blushing, psychological traits of people, Dr. J. Sandler, V. Rakoff, **47**, 360
Body build, classification and obesity, Dr. J. M. Tanner, **45**, 116
BOLTZ, C. L., West country's historical contribution to science, the, **47**, 362, **48**,455
BONDI, Prof. H., Theories of cosmology, **45**, 33
Bones, analytical methods of dating, Dr. K. P. Oakley, **45**, 3
BOWDEN, Dr. F. P., Friction between solids, **45**, 43
BOWEN, Dr. H. J. M., Biogeochemistry of strontium, **47**, 357, **49**, 585
Box beams, constraint effects in, D. Howe, K. H. Griffin, **47**, 358
BOYD, Dr. R. L. F., Research with rockets, **47**, 355, 363
Brain and muscle, Prof. E. G. T. Liddell, **45**, 52
BRAIN, Sir Russell, Bt., Semantic aspects of aphasia, **47**, 360, 367
BRAMBELL, Prof. F. W. R., Immunity and development, **46**, 177
Bristol, archaeology of, Dr. E. K. Tratman, **47**, 359
changes in economic geography, F. Walker, **47**, 357
climatic fluctuations in, Dr. F. G. Hannell, **47**, 357, **48**, 373
geographical setting, Prof. W. W. Jervis, **47**, 357
geology of, Prof. W. F. Whittard, **47**, 357
geomorphology of, O. D. Kendall, **47**, 357
meeting, **47**, 277
physiography of, Prof. S.W. Wooldridge, **47**, 357
sectional officers, **47**, 369
sectional transactions, **47**, 355
British forestry, The place of broadleaved trees in, A. H. Popert, **47**, 361
British Schools' Exploration Society's 1951 Expedition, Dr. F. G. Hannell, **47**, 362
BRONOWSKI, Dr. J., The educated man in 1984, **47**, 301, 361
BROOK, D. L., Effect of leakage on compression and expansion, **47**, 358, 366
BROWN, G. I., Teaching valency theory, **47**, 356, 364, **49**, 526
BROWN, Dr. R. H. J., Flapping flight of birds, **47**, 359
BULL, Dr. C., Greenland ice-sheet, **47**, 358, 365
BULL, G. B. G., Thomas Milne's land utilisation map, London, 1800, **47**, 358
Burial customs, Pre-Neolithic Britain, Dr. L. H. Wells, **47** ,359
Burials, Middle and Upper Palaeolithic, M. C. Burkitt, **47**, 359
scientific evidence from, L. Biek, **47**, 359
BURKITT, M. C., Middle and Upper Palaeolithic burials, **47**, 358
BURNABY, Dr. T. P., Distribution of foraminiferal species, **47**, 356
BUSHNELL, Dr. G. H. S., Disposal of dead in ancient Peru, **47**, 359

Cabot, last voyage of John, Prof. A. A. Davies, **47**, 358
Calanus finmarchicus, clines in, Dr. C. B. Rees, **47**, 357
CALDER, P. Ritchie, Fragmentation of Science, **47**, 328, 362
Canada, pioneering in, J. W. Birch, **47**, 357
Cannibalism, New Guinea, R. Berndt, **47**, 359
CAPPER, P. L., Soil mechanics, **47**, 356, 366
CARMICHAEL, Dr. E. A., DIX, Dr. M. R., and HALLPIKE, Dr. C. S., Lesions of the cerebral hemispheres, **45**, 65
CARSTAIRS, D. H., The aircraft industry, some uses of timber in, **47**, 361
CARSTAIRS, Dr. G. M., Use of psychological tests in anthropology, **47**, 360, 367
CARTER, Dr. G. O., Genetic diseases and child health, **47**, 357
Caves, Derbyshire district, Report of Committee, **45**, 128
Cell structure, biochemistry of, Prof. J. N. Davidson, **47**, 355
Cells, behaviour of living, Dr. E. J. Ambrose, Dr. M. Abercrombie, **47**, 357
Cellular structures and protein synthesis, Prof. E. W. Yemm, **47**, 360
Cerebral activity, **47**, 359, 366, **48**, 387
cortex, localisation in, Dr. E. D. Adrian, **45**, 49
cortex, voluntary movement, Dr. J. A. V. Bates, **45**, 49
dysfunction, M. F. Piercy, **47**, 359, **48**, 395
hemispheres, lesions of, Dr. E. A. Carmichael, Dr. M. R. Dix, Dr. C. S. Hallpike, **45**, 65
organisation, Dr. D. M. Mackay, **47**, 359, **48**, 392
Chalk grassland, Dr. J. F. Hope-Simpson, **47**, 361
community, Sir A. Tansley, **47**, 361
mineral nutrition, I. H. Rorison, **47**, 361
soil factors, F. H. Perring, **47**, 361
CHAMBERS, J. D., Population change, 18th century, **47**, 358, 366
CHANCE, Dr. M. R. A., Sub-human primates, **47**, 357
CHAPMAN, Prof. S., International geophysical year, **47**, 355
Charterhouse nest-box scheme, The, J. J. Swift, **47**, 362
Chemical principles, teaching of, Prof. D. H. Everett, **47**, 356, 364, **49**, 515
CHESTERS, Prof. C. G. C., Living cells, fungal population on bark, **47**, 361
CHEW, Miss H. C., Changes in regional farming, England and Wales, 1930–50, **47**, 358
Chicago, administrative structure, Prof. M. Proudfoot, **47**, 357
Child guidance, Work of psychologists, R. V. Saunders, **47**, 360
Children, treatment of affectionless, Mrs. B. E. Dockar-Drysdale, **47**, 360
CHRISTIE, J. M., Tectonic phenomena, **47**, 356 ,**49**, 572

Cilia, co-ordination and movement of, M. A. Sleigh, **47**, 359
City amateur, the, Dr. W. E. Swinton, **47**, 362
CLARK, Dr. M. M., Left-handedness, **47**, 360, 367
CLAYTON, K., Glacial succession in Essex, **47**, 357
CLAYTON, Mrs. R. M., Differentiation in the embryo, **47**, 356
COCKFIELD, F. A., Report of Royal Commission on taxation, **47**, 358, 366
COCKIN, Rt. Rev., F. A., Man's freedom and dependence, **48**, 475
COCOA, Dr. W. G. C. Forsyth, **47**, 355
Co-education in secondary schools, R. R. Dale, **47**, 360
COLE, Dr. H. A., and MILLAR, Dr. R. H., Shellfish culture in France, **47**, 357
Colonial products, chemistry of, **47**, 355
Combustion and the aircraft gas-turbine, Dr. B. P. Mullins, **47**, 355
Community, the, Dr. F. M. Martin, **47**, 360, **48**, 448
Compression and expansion, effect of leakage, D. L. Brook, **47**, 358
CORMACK, R. S., House sparrows, the head plumage of, **47**, 362
Cornish rocks, radioactive studies, I. H. Ford, **47**, 356
Corresponding Societies, Bristol, **48**, 479
Cosmic rays, Prof. C. F. Powell, **47**, 355
Cosmology, evolutionary processes, Dr. D. W. Sciama, **45**, 38
modern theories of, Prof. H. Bondi, **45**, 33
COSSLET, Dr. V. E., Electron microscopy, **47**, 355, 363
COTTRELL, Dr. A. H., Behaviour of metals in atomic piles, **47**, 355, 363
COULSON, Prof. C. A., Teaching quantum mechanics, **47**, 356, 364, **49**, 523
Council's report to General Committee, 1954–5, **47**, 339
COWIE, J. W., Lower Palaeozoic of Greenland. **47**, 356
COUPER, Dr. R. A., Pollen grains from the Jurassic, **47**, 360
CRAMPTON, C. B., Moine and Cambrian fabrics, Sutherland, **47**, 356, **49**, 574
CREED, Dr. R. S., The sensory pathway, **46**, 230, **47**, 359
CRICK, Dr. F. H. C., Replication of DNA, **47**, 355
Crop production, water control for increased, Dr. H. L. Penman, **45**, 29
Crustacea, larval characters in classification of, Dr. Isabella Gordon, **47**, 357
Culm (N. Devon), structure of, Dr. W. R. Dearman, **47**, 356
CURLE, Prof. A. C. T. W., Psychoanalysis and Society, **47**, 360, **49**, 553
CUTHBERTSON, Dr. D. P., Trace element deficiencies in stock, **47**, 362, 368, **49**, 485

DALE, R. R., Co-education in secondary schools, **47**, 360
DARLINGTON, Prof. C. D., Nucleic acid, midwife molecule, **47**, 355, 364
DAVIDSON, Dr. H. R. E., Funeral symbolism, Anglo-Saxon England, **47**, 359, 366
DAVIDSON, Prof. J. N., Biochemistry of cell structure, **47**, 355, 363
DAVIES, Prof. A. A., Last voyage of John Cabot, **47**, 358
Dead, earliest evidence of disposal, Dr. K. P. Oakley, **47**, 359
DEAN, W. T., Trilobites, Caradocian series, **47**, 356
DEARMAN, Dr. W. R., Structure of the Culm, N. Devon, **47**, 356
Decision problem, the, Prof. R. L. Goodstein, **47**, 355
Demography in Inter-Tropical Africa, Report of Committee, **45**, 129
Devon, geology of North, **47**, 356
DIGBY, A., Burial among Maya, **47**, 359
DIMBLEBY, Dr. G. W., Ecological study of buried soils, **45**, 11
DOCKAR-DRYSDALE, Mrs. B. E., Treatment of affectionless children, **47**, 360
DNA, biology of, Prof. J. B. S. Haldane, **47**, 355
replication of, Dr. F. H. C. Crick, **47**, 355
DONOVAN, Dr. D. T., Mesozoic stratigraghy of E. Greenland, **47**, 356
DOREY, Dr. S. F., Influence of engineer on sea transport and trade, **46**, 209, **47**, 358
Dronning Louise Land, geology, J. D. Peacock, **47**, 356
Drugs from vegetable waste, Dr. P. C. Spensley, **47**, 355
DUNCAN, D. C., Recording of labour losses, **47**, 360, 367
DUNWORTH, Dr. J. V., Use of fuel in nuclear power programme, **47**, 358, 363
Dust and health in industry, Dr. B. M. Wright, **47**, 359, 366, **48**, 411
(Dust) protection against inhalation of industrial, S. Smith, **47**, 359, **48**,
DYMOND, Miss D., The junior school—past and present, **47**, 361

East Greenland, geology of, Prof. W. F. Whittard, **47**, 356
mezozoic stratigraphy, Dr. D. T. Donovan, **47**, 356
Ecology of tropical lagoons, Prof. J. E. Webb, **47**, 357
EDMONDS, J. M., and BEARDMORE, P. A., John Phillips and the Association, **45**, 97
EDMUNDS, F. H., Geology and site investigations, **47**, 356
Education, a scientific, Sir Philip Morris, **47**, 355, **49**, 531
Educated man, in 1955, J. F. Wolfenden, **46**, 258, **47**, 361
in 1984, Dr. J. Bronowski, **47**, 301, 361
Education, in farming, the impact of, W. B. Mercer, **47**, 362
through physics, Prof. F. A. Vick, **47**, 355, **49**, 540
EDWARDS, W. N., Geographical distribution of past floras, **46**, 165, **47**, 356
EELS, F. R., Economics of shift working, **47**, 358
Egypt, burial customs in ancient, Dr. Margaret Murray, **47**, 359
Electricity production in Gt. Britain, E. M. Rawstron, **45**, 73
Electron-microscopy, Dr. V. E. Cosslet, **47**, 355
Elver fishery, river Severn, F. T. K Pentelow, **47**, 357
Embryo, differentiation in, Mrs. R. M. Clayton, **47**, 356
EMDEN, Dr. F. I. van, Taxonomy in insects, **47**, 357
Endogone, some woodland species of, Miss R. M. Godfrey, **47**, 361
Engineer, influence of the on sea transport, Dr. S. F. Dorey, **47**, 358
Equipment, modern, and the design of tasks, D. Wallis, **47**, 360
Eriboll, tectonic history, P. Wilkinson, **47**, 356, **49**, 573
Estuaries, natural history of, **47**, 357
Ethology and psychology, Prof. A. Rex Knight, **45**, 24
aspects of, Dr. N. Tinbergen, **45**, 17
EVANS, Miss A. E., Polyploids in clovers, **47**, 360, 367
EVERETT, Prof. D. H., Teaching of chemical principles, **47**, 356, 364, **49**, 515
Evolutionary missing links from fissures in Bristol area, Miss P. L. Robinson, Dr. K. A. Kermack, **47**, 356

Family, the, Dr. H. G. Maule, **47**, 360, **48**, 443
Farming, changes in regional, England, Wales, 1930–50, Miss H. C. Chew, **47**, 358
impact of education on, W. B. Mercer, **46**, 267, **47**, 362
Faroe-Shetland channel, Atlantic current, Dr. J. B. Tait, **47**, 358
Fat, deposition of in farm animals, Dr. J. Hammond, **45**, 126
Fatigue, Dr. O. C. J. Lippold, **47**, 359
recent studies, D. C. Fraser, **47**, 360
Faulting in N. Devon, D. J. Shearman, **47**, 356
Fertility levels; factors decreasing, A. F. Holt, **47**, 362
factors enhancing, Dr. J. Hammond, **47**, 362
Fertility, in farm animals, **47**, 368, **49**, 505
in livestock, Dr. J. A. Laing, **47**, 362
Films, research, Dr. A. R. Michael's, **48**, 481
FITCH, J. H., Psychologist in the prison service, **47**, 360
Flames, and combustion, **47**, 355, 363
structure of, Dr. A. G. Gaydon, **47**, 355
study by optical methods, Dr. F. J. Weinberg, **47**, 355
Floras, geographical distribution of past, W. N. Edwards, **46**, 165, **47**, 356
FLOWERS, Dr. B. H., Fundamental particles, **47**, 355
FLOYD, C. M., Hedgerow timber in the west of England, **47**, 361
FLOYD, Dr. W. F., Effects of lighting on visual performance, **47**, 359
Foetus, endocrine environment, Prof. E. C. Amoroso, **47**, 357
FOLKES, Dr. B. F., Metabolism of amino-acids, **47**, 360, 367
Food intake, central nervous control, Dr. G. C. Kennedy, **45**, 123
Foraminiferal species, distribution, Dr. T. P. Burnaby, **47**, 356
FORD, I. H., Radioactive studies of Cornish rocks, **47** ,356
FORSYTH, Dr. W. G. C., Cocoa, **47**, 355
Fossils, Old Red Sandstone, S. Wales, Dr. Gwynn Thomas, **47**, 356
trace, Dr. Scott Simpson, **47**, 356
Foundation, design, and soil mechanics, F. D. C. Henry, **47**, 356
stress distribution under, Dr. J. E. Gibson, **47**, 358
FOXON, Dr. G. E. H., Radiographic methods in zoological research, **47**, 357
FRASER, D. C., Recent studies in fatigue, **47**, 360
FRASER-ROBERTS, Dr. J. A., Causation in mental deficiencies, **47**, 357
Freedom and dependence, Rt. Rev. F. A. Cockin, **48**, 475
Freshwater biology, Miss F. Scott, **47** 362
Friction between solids, Dr. F. P. Bowden, **45**, 43
Fuel, use in nuclear power programme, Dr. J. V. Dunworth, **47**, 358
Fundamental particles, Dr. B. H. Flowers, **47**, 355
Funeral symbolism in Anglo-Saxon England, Dr. H. R. E. Davidson, **47**, 359
Funerals in Europe, song and dance in connection with, Miss V. Alford, **74**, 359
Funerary customs, survival of, L. V. Grinsell, **47**, 359
Fungi, cytoplasmic inheritance in, Dr. J. L. Jinks, **47**, 360
in forests, **47**, 361, 367
FURNEAUX, W. D., Success in intelligence tests, **47**, 360

GATENBY, Prof. J. Brontë, Study of contractile vacuole, **47**, 357, 365
GAWN, Dr. R. W. L., Model research and ship design, **47**, 358, 366
GAYDON, Dr. A. G., Structure of flames, **47**, 355
General Committee, Council's report to, 1954–5, **47**, 339
Genesis of the soils overlying chalk, the, R. M. S. Perrin, **47**, 361
Genetic diseases and child health, Dr. G. O. Carter, **47**, 357
Genetics, and medicine, **47**, 357, 359, 365
and plant breeding, **47**, 291, 360, 367
Geographical distribution of past floras, W. N. Edwards, **46**, 165, **47**, 356
Geographical speciation, Dr. J. S. Huxley, **47**, 357
in fishes, Dr. Ethel Trewavas, **47**, 357
Geography and its history, J. N. L. Baker, **46**, 188, **47**, 357

Geology, and civil engineering, **47**, 356, 364
and site investigations, F. H. Edmunds, **47**, 356
aspects of New Town, P. H. Shelford, **47**, 356
GEORGE, Dr. F. H., Semantics, pragmatics and behaviour, **47**, 360
GIBSON, Dr. J. E., Stress distribution under foundations, **47**, 358, 366
GIBSON, I. F., Rationalisation of wages, **47**, 358
Glacial succession in Essex, K. Clayton, **47**, 357
GLAZER, A. N., Respiration, **48**, 398
GLEES, Dr. F. P., and COLE, J., Sensorimotor skill in monkeys, **45**, 63
GODFREY, Miss R. M., *Endogone*, some woodland species of, **47**, 361
GODWIN, Dr. H., Somerset Levels, **47**, 319, 360
Gold Coast, vegetation and rainfall, Prof. W. J. Varley, **47**, 358
GOLDRING, D. C., Structural petrology of Dalradian schists, **47**, 356, **49**, 576
GOLDRING, R., Sedimentation, N. Devon, **47**, 356
GOODSTEIN, Prof. R. L., The decision problem, **47**, 355
GOODY, Dr. J., Death among Lo Dagaa, Gold Coast, **47**, 359
GORDON, Dr. G., Sensory pathway, **48**, 435
GORDON, Dr. Isabella, Larval characters and classification, **47**, 357
GOTT, H. H., Design of power producing reactors, **47**, 358
GOUGH, Prof. J., and HEPPLESTON, Dr. A. G., Pneumoconiosis, the harmful effects of, **47**, 359, **48**, 412
Grassland, use of, **47**, 368
Grass silage, The nutritive value of, Dr. C. C. Balch, **47**, 361
GRAY, H. St. George, Lake villages of Somerset, **47**, 359, 366
Greenland, ice-sheet, Dr. C. Bull, **47**, 358
ice-sheet, H. Lister, **47**, 358
Lower Palaeozoic, J. W. Cowie, **47**, 356
GRIEW, S., Work of psychologist in industrial rehabilitation, **47**, 360
GRINSELL, L. V., Inhumation and cremation, British Bronze Age, **47**, 359, 366
GRÜNEBERG, Dr. H., Inherited diseases in animals, **47**, 357, 365

HALDANE, Prof. J. B. S., Biology of DNA, **47**, 355
HALL, Dr. E. T., Spectroscopic analysis in archaeology, **45**, 8
HAMILTON, R. A., Utilisation of grassland, **47**, 361, 368
HAMMOND, Dr. J., Factors enhancing fertility, **47**, 362, **49**, 508
Handicap, psychological and industrial, in unskilled workers, Dr. A. Heron, **47**, 360
HANNAY, Dr. J. W., Micronutrient problems, **47**, 361, 367
HANNELL, Dr. F. G., Climatic fluctuations in Bristol, **47**, 357, **48**, 373
School Exploration Society's expedition, 1951, **47**, 362
HARDEN, Dr. D. B., Anthropology—a scientific unity? **46**, 220, **47**, 359
HASKELL, Dr. G. M., Genetical problems of *Rubus* species, **47**, 360
HASSALL, Prof. C. H., Medicinal products from tropical plants, **47**, 355, 364
HAWKER, Dr. Lilian E., Hypogeous fungi, **47**, 361
Heat in the earth, D. W. Allan, **45**, 89
Hearing, nervous mechanism, Dr. I. C. Whitfield, **47**, 359, **48**, 439
Hedgerow timber in the west of England, C. M. Floyd, **47**, 361
HENRY, F. D. C., Soil mechanics and design of foundations, **47**, 356, 366
Heredity and the structure of DNA, **47**, 355, 361
Hereditary differences, Dr. N. A. Mitchison, **47**, 357

Diffraction Gratings

The Merton/N.P.L. Diffraction Gratings are manufactured by processes developed at the National Physical Laboratory

PATON HAWKSLEY

ROCKHILL LABORATORIES · KEYNSHAM · BRISTOL

GRATINGS AT PRESENT AVAILABLE

MERTON—NPL Reflection Diffraction Gratings for Infra-red Spectrometry

Ruling No.	Grooves per Inch	Wavelength of 1st Order "Blaze"—Microns	Size Inches
317	1,200	9	3 × 3
274F	2,400	3½	6 × 3
274P	2,400	10	4 × 3
287C	7,500	2	3 × 3
287A	7,500	3½	5 × 3

All gratings are finished aluminised on ¼in. glass blanks

Price **25s.** per sq. inch and pro rata

By Prof. L. J. WILLS

Emeritus Professor of Geology, University of Birmingham

Concealed Coalfields

A Palæogeographical Study of the Stratigraphy and Tectonics of Mid-England in relation to Coal Reserves.

The author has brought together a profuse amount of scattered information, including that from numerous recent boreholes, and analyses and interprets it in the light of present-day geological knowledge. Many new features have emerged which are of concern not only to geologists and the National Coal Board, but to an educated public interested in a great national asset. 40*s. net.*

Palæogeographical Atlas

Primarily concerned with the British Isles, but for most periods sketch maps of Europe demonstrate the relation of the British region to its contemporary surroundings. Each of the fifty-four maps, in three colours, is accompanied by a brief explanatory description. 21*s. net.*
